PART III A : Generating Insights

Sales Pipeline Conversion at a SaaS Startup

Variable

Overall Technology Primary conversion average won rate shows average rate shows 21%.

Overall Opportunity Size (USD) average won rate shows 16%.

Overall B2B Sales Mediumconversion average won rate shows 19%.

Insights if any

- Technology Primary – Legacy Modernization shows lower conversion won rate at 12%.
- Online Leads shows lower Conversion won rate at 6%.
- Last time no business show ERP Implementation at higher counting 43790.
- Kolkata and Pune shows lower conversion won rate 21% and 19% respectively.

Pattern of Insight

Overall Technology Primary – Last year no business shows at counting 69208.

Overall Conversion average won rate on city Base is 22%.

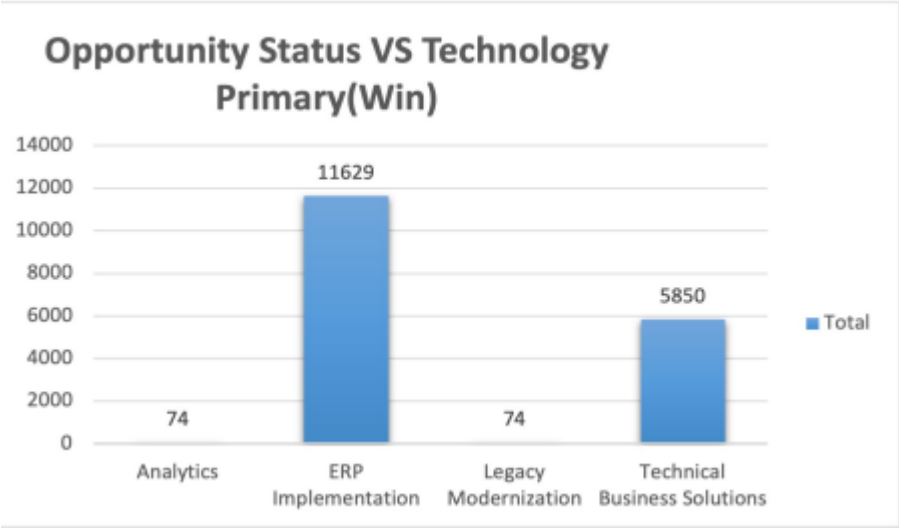
PART III A : Generating Insights

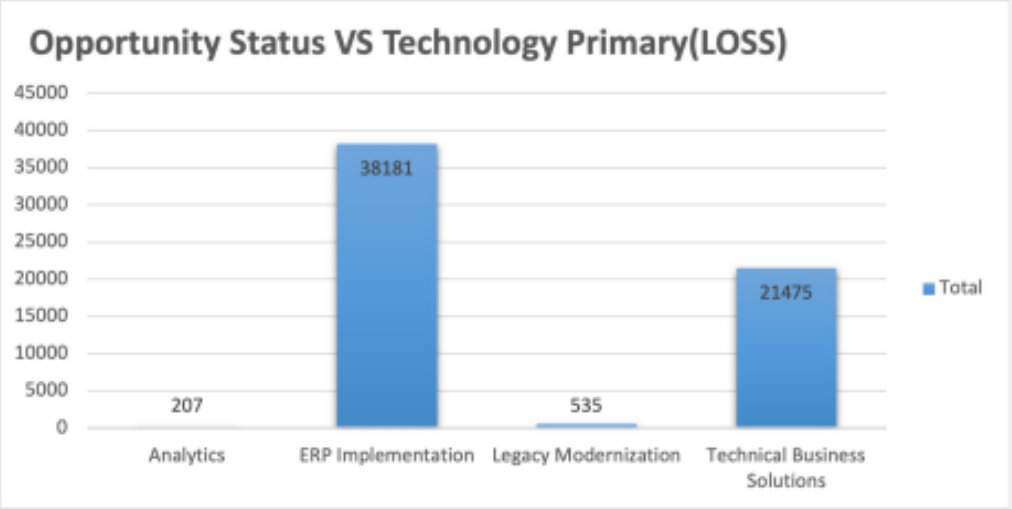
Sales Pipeline Conversion at a SaaS Startup

Variable under consideration:

Technology Primary:

The Highest Lost of Leads is Among The ERP implementation And Technical Business Solutions. This also shows we have highest leads generated for this segment which also means there is a huge opportunity/demand for this Technology Offering





PART III A : Generating Insights

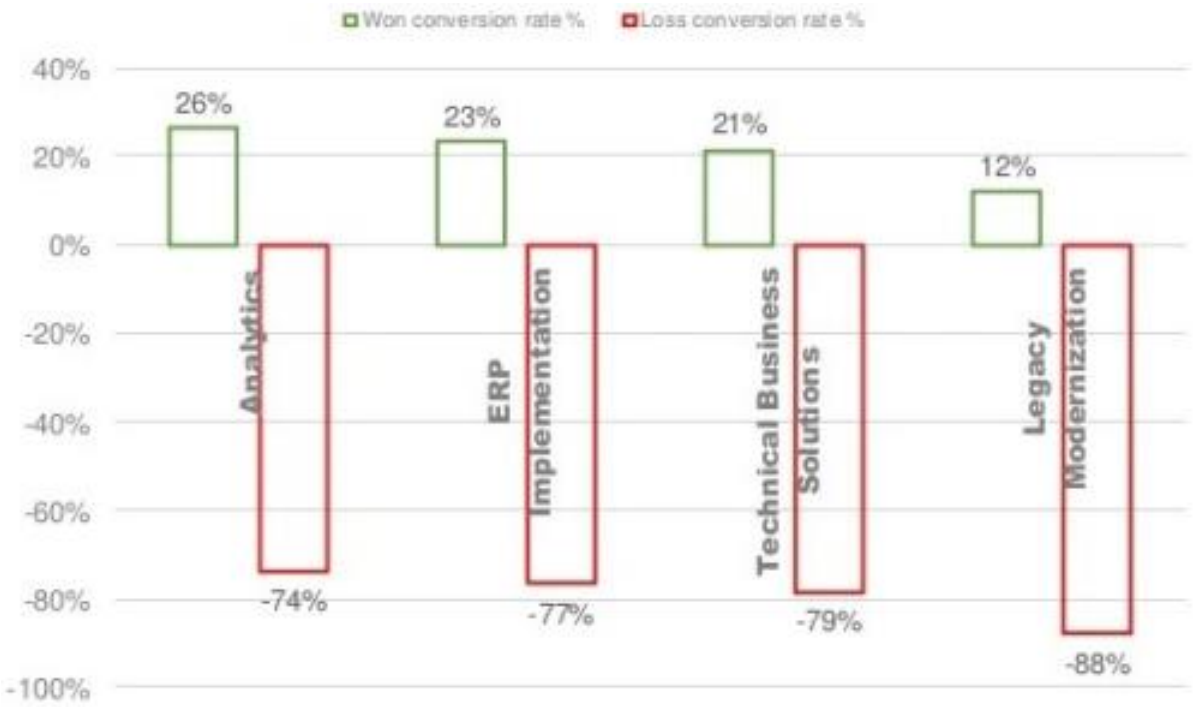
Sales Pipeline Conversion at a SaaS Startup

Variable under consideration:

Technology Primary – Conversion Rate in %

- Overall Technology Primary conversion average won rate shows 21%.
- Technology Primary – Analytics shows higher conversion won rate at 26%.
- Technology Primary – Legacy Modernization shows lower conversion won rate at 12%.
- Overall Technology Primary conversion average loss rate shows 79%.

Technology Primary – Conversion Rate in %



PART III A : Generating Insights

Sales Pipeline Conversion at a SaaS Startup

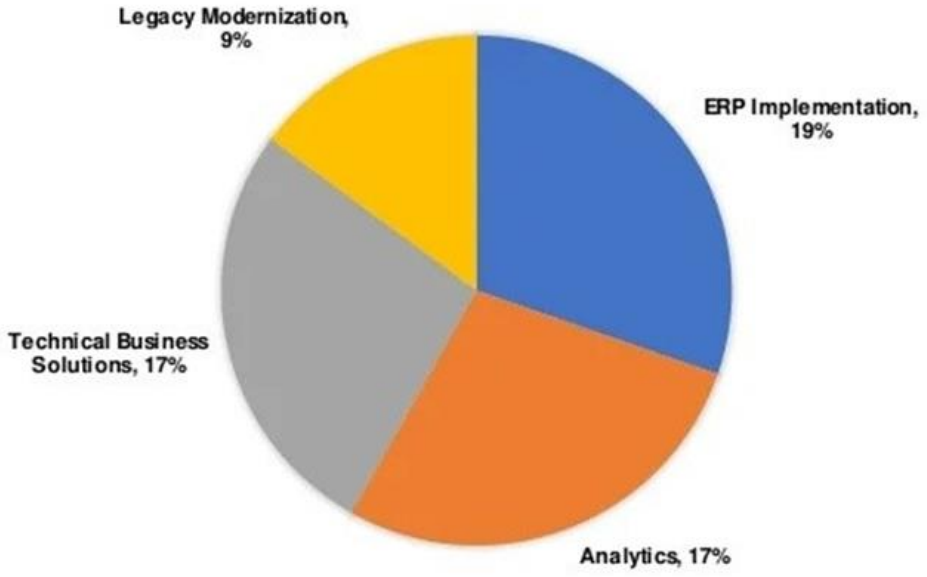
Variable under consideration:

Technology Primary of Conversion Rate by Opportunity
Size (USD)

Overall Technology Primary – Opportunity Size (USD)
Average convrsion won rate shows 16%

- ERP Implementation Shows higher conversion won rate at 19%.
- Legacy Modernization shows lower conversion won rate at 9%.

- Technology Primary of Conversion Rate By Opportunity Size (USD)



PART III A : Generating Insights

Sales Pipeline Conversion at a SaaS Startup

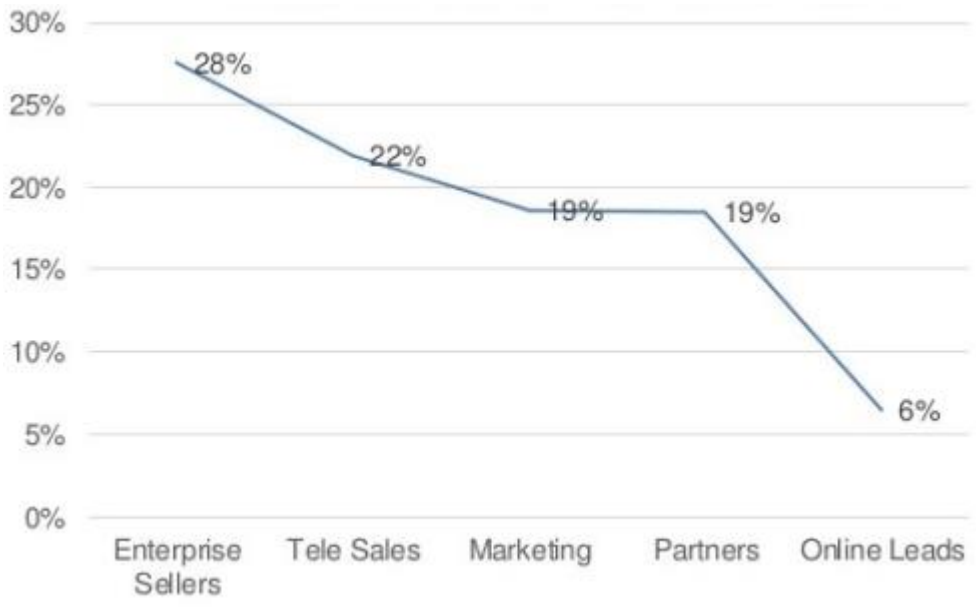
Variable under consideration:

B2B Sales Sales Medium – Coversion Rate %

Overall B2B Sales Medium conversion average Won rate shows 19%

- Enterprise Seller shows higher conversion won rate at 28%.
- Online Leads shows lower conversion. Won rate at 6%.

B2B Sales Medium – Conversion Rate %



PART III A : Generating Insights

Sales Pipeline Conversion at a SaaS Startup

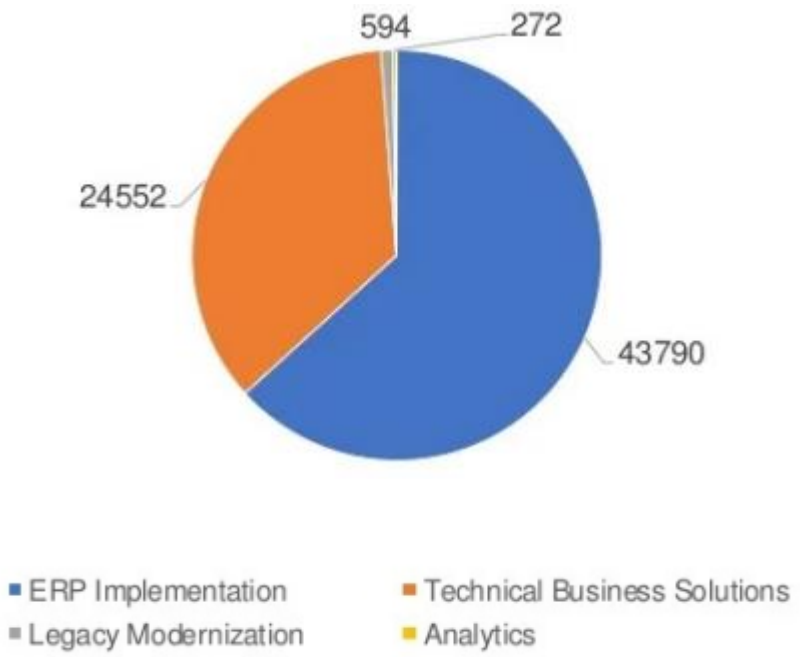
Variable under consideration:

No Business from Client Last Year – Counting Basis

Last Year no business ERP Implementation
At higher counting 43790

- Last Year no business show Legacy Modernization and Analytics at lower counting 594 and 272 respectively.
- Overall Technology Primary – Last year no business shows at counting 69208.

No Business from Client Last Year – Counting basis



PART III A : Generating Insights

Sales Pipeline Conversion at a SaaS Startup

Variable under Consideration

Conversion Won rate in % on City Base

Overall Conversion average won rate on city
Is 22%

- Mumbai and Delhi shows higher conversion

  Won rate 25% and 23% respectively.

- Kolkata and Pune shows Lower conversion won rate 21% and 19% respectively

PART III A : Generating Insights
